

## Tyco MCP260M Marine Conventional Weatherproof Manual Call Point

### Part No.: 514.001.112

The Tyco MCP260M 514.001.112 is a conventional manual call point, designed for outdoor use. MCP260M manual call point gives an alarm by breaking a glass element. The glass element has a protective plastic coating to prevent operator injury.

Tyco MCP260M features an anti-tamper function. If the lid of the MCP260M is removed without isolation from the panel, an alarm will sound. A special tool required to release the lid, as required by EN54-11.

MCP260M come complete with an integral LED indicator and IP67 weatherproof for external applications.
