

Tyco MCP250M Marine Conventional Manual Call Point

Part No.: 514.001.113

The Tyco MCP250M 514.001.113 is a conventional manual call point, designed for indoor use. MCP250M manual call point gives an alarm by breaking a glass element. The glass element has a protective plastic coating to prevent operator injury.

Tyco MCP250M features an anti-tamper function. If the lid of the MCP250M is removed without isolation from the panel, an alarm will sound. A special tool required to release the lid, as required by EN54-11.
