

## Tyco 5B 5" Universal Detector Base

### Part No.: 517.050.017

Tyco 5B 5" Universal Detector Base LPCB 517.050.017

The Tyco 5B 5" universal detector base is the most commonly used base for MX applications. 5B (517.050.017) is fully EN54 and Vds approved for use with the MX detector range and use for the Minerva M900 addressable and Series 600 conventional ranges of detectors.

A complete range of Tyco matching bases and accessories to complement the Low Profile Detector Range; including standard bases, isolator bases. These provide a cost effective method of adding functions and flexibility to the fire detection installation.

For humid and environmentally challenging applications such as marine or offshore installations: Optional DHM-5B Deck Head Mounting available separately.

### Features

- ✓ Drive a remote indicator
- ✓ Detector locking pin with every base
- ✓ Temporary Park position
- ✓ The 5" Universal Detector Base accepts an address label flag from the Detector when used with MX Detector Ranges
- ✓ Fit directly to a British or European conduit box or directly onto the ceiling
- ✓ Break-outs for surface installation
- ✓ Product Code: 5B (517.050.017)
