

Interchangeable Humidity and Temperature Probe with Digital Output

Part No.: EE07

Technical Specification

Measuring range –Humidity	0...100 % RH
Measuring range –Temperature	-40...80 °C (-40...176 °F)
Sensing element protection	E+E proprietary coating
Enclosure material	Polycarbonate or Stainless Steel
Output	digital E2 interface
Supply	standard: 3.8-5.5 V DC with energy saving option: 2.7-5.5 V DC
