

HVAC Humidity and Temperature Sensor

Part No.: EE160

Technical Specification

Measuring range –Humidity	10...95 % RH
Measuring range –Temperature	-40...60 °C (-40...140 °F)
Sensing element protection	E+E proprietary coating
Output analogue	0-10 V / 4-20 mA / T passive
Output digital	Modbus RTU / BACnet MS/TP
Types	wall mount / duct mount
