

Dew Point Measurement Module for High Humidity Applications

Part No.: EE1950

Technical Specification

Measuring range –Dew point	-20...100 °C Td (-4...212 °F Td)
Measuring range –Temperature	-70...180 °C (-94...356 °F)
Sensing element	heated for high humidity operation, E+E proprietary coating, Automatic sensor Recovery (ARC)
Output	0-1 V / 0-5 V / 0-10 V / 0-20 mA / 4-20 mA (3-wire)
