

Multifunctional Flow Sensor for Compressed Air and Gases DN40 (1 1/2")-DN80 (3") / 40 bar (580psi)

Part No.:EE772

Technical Specification

Pipe diameter	DN40 up to DN80 (1 1/2"-3")
Measuring range	0.5-200 m/s (100...39370 SFPM)
Pressure range	up to 40 bar (580 psi)
Gauge mounting block	with hot tap valve for installation and removal without interruption of the flow
Output	0-10 V / 0-20 mA / 4-20 mA / Pulse / Switch / Modbus RTU / M-Bus
