

1. TBV Superyacht projects

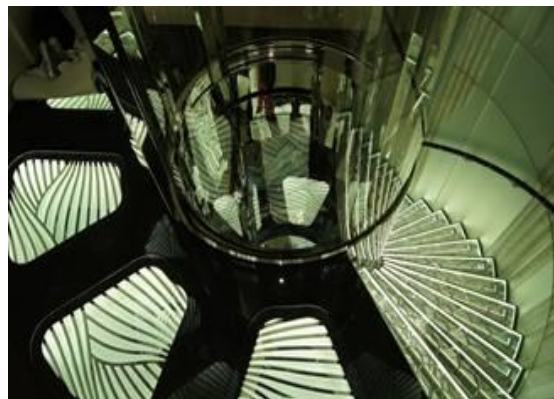

Helicopter platform with hidden lifting platform

A helicopter landing platform with lifting platform (including complete hangar) for a 162.5 meter superyacht, owner: Mr. Roman Abramovich ([link](#)).

Custom-made glass superyacht elevators

Example: glass elevator in a superyacht for Russian client, delivery at Heesen shipyard ([link](#)).

(sundeck) dumbwaiters

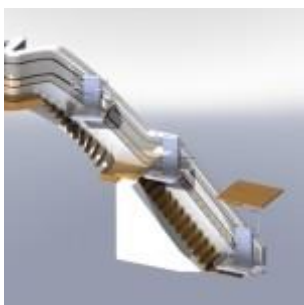

We have built these types of “through the deck” dumbwaiter as ammunition elevators as well ([link](#)).

(in background: round glass elevator in transport frame)

Inclined wheelchair elevator

We have delivered a tailor-made inclined wheelchair elevator for installation on board of a superyacht ([link](#)).

In operation

Superyacht extending pool & deck covers

Based on our group experience with the development of the Mutandor® ([link](#)) have developed an extending pool & deck cover for yacht, superyacht and luxury cruise vessel applications ([link](#)).

Superyacht tender launch systems & hull doors

For yachting applications, we develop and manufacture specialized hull door and seal solutions, often combined with our unique tender launch systems. On the example below, a double-function hinge solution was implemented to allow the tender to be stored in a narrow area whilst ensuring watertightness of the hull door ([link](#)).
