

## CO2 CYLINDER MECHANICAL WEIGHTING DEVICE

### Part No.: WR531010

It is a mechanical weighting device. It is widely used for weighting CO2 cylinders of different sizes and brands in the markets, such as NK, SEAPLUS, UNITOR, TYCO etc.

The weighting device can be used for 50L, 68L, 80L CO2 cylinders.

#### Technical specification

Material	Stainless steel
Measure range	50~200kg

#### Packing list

Item	Qty
Beam (Stainless Steel)	1
Weighting Scale	1
Hook (Stainless Steel)	3
York (Stainless Steel)	1
Operation instruction and calibration report for scale	1
Carriage box	1
