

## REFREGIRETION GAS - R407C

### Part No.: WR813015

The R407C is a product blended by R32, R134a and R143a, colorless gas under normal temperature, transparent liquid under pressure, it mainly used in refrigeration system at low-medium temperature.

The product is packed in appropriate cylinders or tanks(or tank cars). It is to be kept in cool and dry place, without being exposed to heat source, sunlight and raining.

#### Technical specification

Product name	R407C
Chemical Strcture	CF <sub>3</sub> CH <sub>2</sub> F/CF <sub>3</sub> CHF <sub>2</sub> /CH <sub>2</sub> F <sub>2</sub>
Relative molecule mass	86.2
Boiling point	-43.8 °C
Net weight	10kg (22lb)
Product standard	Q/JHGS 207-2015
