

Fog/Jet Monitor -100M

1 Product Overview

A range of manually operated fog/jet, water and foam monitors with exceptional flow characteristics that optimize throw range. This gives exceptional delivery of water or foam as a jet or as a spray pattern. The range is available for a number of alternate mounting positions.

2 Key Features

- Wide capacity range
- Adjustable flow
- Compact, balanced design
- Low weight
- Easily maneuvered due to low friction bearings
- Long throw length
- Adjustable stream pattern
- Corrosion resistant construction of stainless steel AISI 31 6L

3 Applications & Certifications

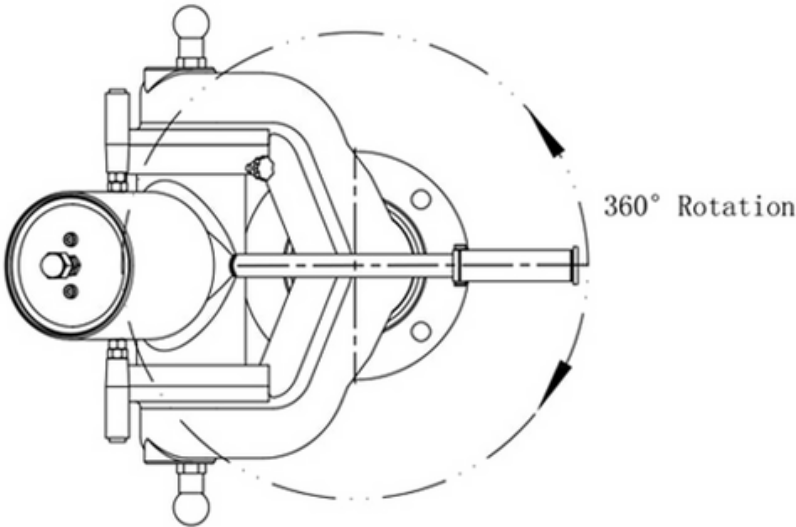

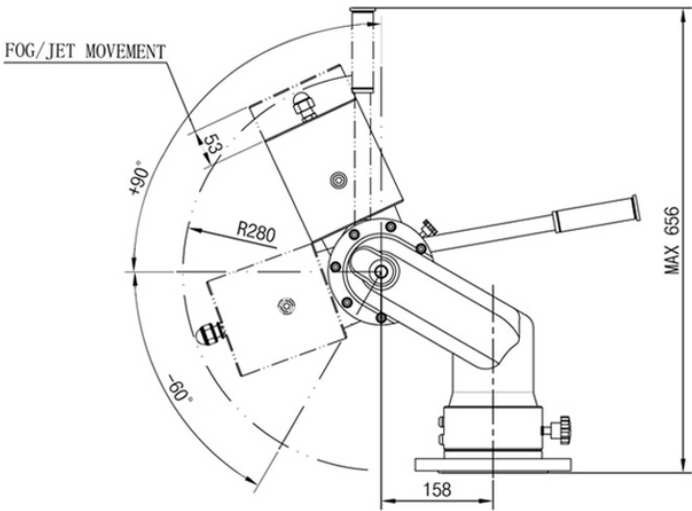

Certified by DNV.GL

EN 13565-1:2003

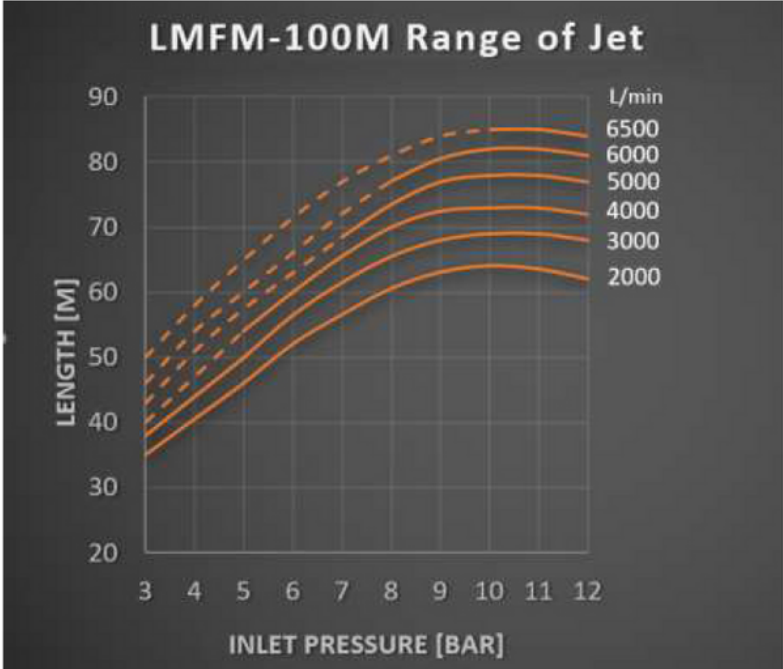

EN 13565-1:2003

4 Product Specifications/Performance Data

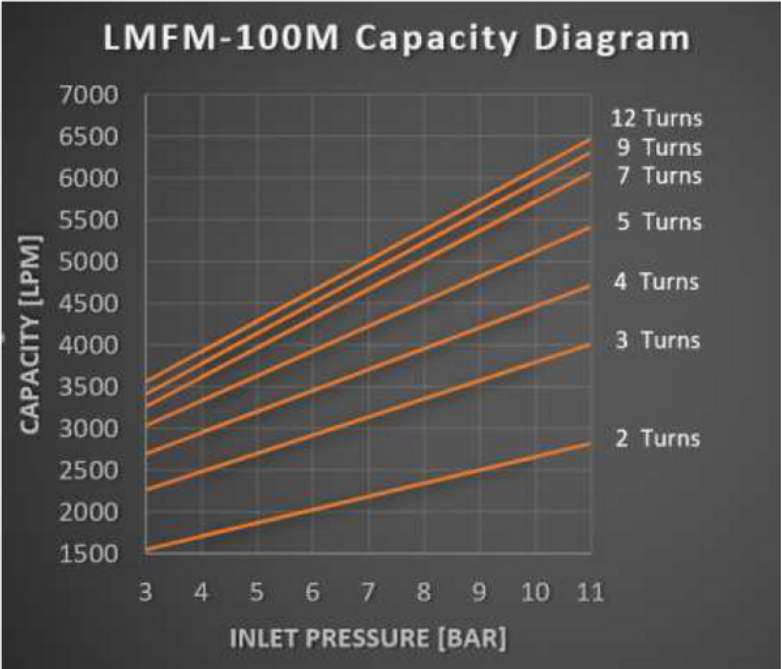

LMFM Manual Series Standard	LMFM-100M
Water Capacity	max 6500 lpm min 1000 lpm
Design Pressure	4-16 bar optimum 10-12 bar
Rotation	360°
Elevation	-60° ~ 90°
Weight	31kg

Product Category : After Market/FFS/Spare Parts

Deduct 8% throw length for 3% foam solution

5 Order Information

Item	Order No.	Description
Fog/Jet Monitor	WR.FOAM.0202	LMFM-100M, DIN
